From

The Superintendent, Govt. Press, Bangalore.

No. 2347 Dated 17.4.1916 Received

Diary No. 9154.	Enclos.	Spare Copies.	Serial No. 11

BRIEF ABSTRACT OF LETTER.

Submits, for the orders of Government, proposals for giving small monthly wages to the students of the Printing class, to keep them on in the line till they acquire proficiency in the art:

NOTES AND ORDERS.

1) The printing class was opened on the 8th November 1915 with 19 students on the roll. The average daily attendance is stated to be 15.

2) The Superintendent apprehends that, as they have received training so as to fit them up for small posts in private firms, they may fall out in due course in the absence of some encouragement. In order

9192 ✓ (2)

G. R. S. 12] 9157

Serial No.

to give them an incentive to continue till they acquire some proficiency in the art, he proposes to remunerate them for the work they turn out and debit the charge to the Piece work allotment, if no separate grant is made for the purpose.

3) The file of Specimens of work stated to have been sent has not been received

Subd. here 2nd 19/4

4) Please put up draft of sanction for a year the charge being met from Piece work allotment & say the question of continuance may be noted in the report on the Class to be held at the end of the year. Put up the file of sanctions to opening of Classes also. —

HP 20/4-16

5) Draft order is Subd. for approval.

H. D. O. No. 2192 of 15

6) Br II has to be consulted.

2nd here 22/4

VA

7) for II HP 24/4-16

8) The School is sanctioned tentatively for one year, and its continuance depends upon the report which will be received at the end of the period. So for the present the pay of Rs 3 p. m. for the A. class pupils and of Rs 5 p. m. for the B. class pupils can only be sanctioned

9) The grant of pay is contingent upon 6 months' continuous training and good conduct. A corresponding reduction in the employment of Piece work establishment is assured In these circles, there is no financial objection to sanction the Supdt's recommendation

DMM 25.4.16 DMM

10 The students should in their own interests complete the prescribed Course and it is not quite clear why they should be paid large Sums as is in duce them to stay for two years. If payment is considered necessary it is perhaps enough if a nominal scholarship of 1 or 2 Rs p.m. is given & not such high rates as 3 to 7 Rs suggested by the Supdt. (Secy)

TO

D. M. NARASINGA RAO, Esq., B. A., B. L.,
Secretary to Government of Mysore,
General Department.

SIR,

I have the honor to approach Government with reference to the Printing Class at the Government Press, which has now been in existence for some months. The students are progressing most satisfactorily, and I am afraid that before long they may be tempted by the offer of some small wage to leave the class and become engaged to private firms in Bangalore and elsewhere.

I am anxious that they should not do this before they have become qualified by examination and the receipt of a technical certificate, say at the end of two years. I beg, therefore, that a small monthly wage be given them after they have attended the class for six months, with an increment at the end of twelve and eighteen months respectively, subject to their work and conduct being satisfactory.

The file of specimens of work sent herewith will shew that they are doing good work, which in the ordinary way would have been done by piecework men. A small wage, therefore, would not be increasing expenses, but would be only paying the students instead of the pieceworkers.

I therefore propose that the pupils be divided into two

sections

sections-A and B-according to their abilities, and that their pay be as follows:-

"A" Class.		"B" Class.	
Per mensem.	Rs.	Per mensem.	Rs.
At the end of six months	3.	At the end of six months	5.
,, ,, ,, ,,	4.	,, ,, ,, ,,	6.
,, ,, ,, ,,	5.	,, ,, ,, ,,	7.

The giving of any pay to depend, as already stated, upon their work and conduct being satisfactory.

The average daily attendance is fifteen.

It would be a great pity if the students were -- induced, by outside influence, to leave the class under two years' tuition. The object of Government in starting it was to produce qualified men, and then let them go to situations. If they leave us before they are qualified, the purpose of the Government will be nullified. Hence my proposal to do something to induce them to - remain for say two years, at the end of which time they should enter for the Madras Technical Examinations. A certificate obtained in this way should assure them a good situation anywhere.

If Government are not prepared to make a separate grant for the proposed payment, then it might be debited to the Piecework allotment in the Budget.

I have the honor to be,

Sir,

Your most obedient servant,

Robt. Yates.

Superintendent,

Government Press.

Dated Bangalore, 13 8th June 1916.

FROM

C. H. YATES, ESQ.,
SUPERINTENDENT, GOVERNMENT PRESS,
BANGALORE.

To D. M. Narasinga Rao, Esq: B.A., B.L.,
Secretary to Government,
General Department.

SIR,

With reference to your letter No. G.P. 26-15-12 dated 23rd instant enquiring why the pupils of the Government Printing Class should not be paid as piece workers out of the piece-work grant by effecting a corresponding reduction in the number of piece workers, I have the honor to reply as follows:—

2. If the pupils were put on piece work

piece work the whole object of the teaching would be frustrated Instead of being concerned with ac-quiring a thorough knowledge of their business, they would be bent on earning money. Would it not be just as reasonable to pay ele-mentary scholars a wage? It is one of the vital principles in technical schools to learn not to earn.

3: When the pupils are often being taught theory, when they would not be producing any work

4. The idea I had in mind, when I made the suggestion contained in my letter of the 17th April, was that the money should be in the nature of a scholarship; and since I wrote it, I notice that a proposal has been made by the Economic Conference that certain grants of money should be made for such purposes

I am of opinion, therefore, that the question may be submitted to the Conference, as one coming under the scope of their proposal.

5. It would, I think, be better to drop the question of payment for work done altogether than to pay the pupils by results.

I have the honor to be,

Sir,

Your most obedient Servant,

Lewis Yates

To

D. M. Narasinga Rao, Esquire, B. A. B. L.
Secretary to Government,
General Department.

SIR,

With reference to your docket No. G 2238/G.P. 26-15-16 dated 18th August 1916, I have the honor to state that the pupils of the printing school are all outsiders and none of them are employees of the press. They are not earning any wages for the work done in the course of their training. It would therefore be a great incentive to them, if they are granted scholarships such as those recently sanctioned by the Economic Conference for workers in workshops etc.

I have the honor to be,
Sir,
Your most obedient Servant,

D. B. Ramachendra Mudaliar

Offg. Superintendent, Government Press.

Proceedings of the 51st meeting of the Industries and Commerce Committee, held at the Chambers of the Second Member of Council, Public Office Buildings, on Saturday the 25th November 1916 commencing from 1 40 P. M.

x x x x x

Training students in the Government Press:-- Correspondence ending with letter No.G.5681-2 dated the 4th November 1916 from the Secretary to Government, General Department, requesting the views of the Committee in the matter of affording encouragement in the shape of scholarships to the pupils of the Government Printing School.

Mr. Yates in his letter to Government states that the students are progressing satisfactorily and should be made to stay at least for a period of two years and to obtain a technical certificate. His idea is that they must first be persuaded to learn the art of printing before they were anxious to earn money. He, therefore, recommends that the pupils may be given scholarships ranging from Rs.3/- to Rs.7/- per month, instead of wages for piece work.

Mr. Yates also refers to outside influences brought on the students to induce them to leave the class in the middle of the course.

Resolution VIII. Resolved that the Committee recommend the scheme to Government for favour of sanction.

Dear Sir,

With reference to the question of affording some encouragement to the pupils of the Govt. Printing School, I may I request you to kindly furnish me with your views on the following points, in the course of the day ?

(1) What is the strength of the Printing School at present

(2) Who are the students to whom scholarships are proposed to be given and what is the amount you would recommend in each case ?

(3) What amount would annually be required ?

over.

Yours sincerely,

Dated Bangalore, 5th March, 1917.

DIARY NO. 788.9

G.P. 26-15 = 21

Dear Sir,

In reply to your D.O. letter of this date, No. G.11952, G.P. 26-15, re encouragement to the pupils of the Government Printing Class, I give herewith my replies to the three questions you have put me.

1. What is the strength of the Printing School at present?

Ans.--The number of pupils is eight. There is accommodation for twenty; but it is not likely that this number will be reached unless an inducement is held out to them to first of all come, and then to remain for the specified time, viz., two years.

2. Who are the students to whom scholarships are proposed to be given, and what is the amount you would recommend in each case?

Ans.--Please see statement enclosed.

3. What amount would annually be required?

Ans.--Please see my letter No. 2347, dated 17th April, 16, a rough copy of which is enclosed for ready reference and kind return. Presuming that there were twenty students, divided into "A" and "B" classes, (say ten in each class), they would be paid after six months in "A" class, R$.5, 4, and 5, according to their progress, that is to say, about R$.40 per month, or R$.240 for six months; and in "B" class they would be paid R$.5, 6, and 7, according to progress, or R$. 60 per month, say; or R$. 360 for the six months. This makes a total of R$. 600 for the second half of the first year, and R$. 1,200 for the full period of the second year

It will be noted that five pupils are in their second year. I am of opinion that their remuneration should begin under class "B" from the time that orders are passed upon the proposal.

Yours sincerely,

T.E. Jayaram Asst. S., F.A., Pr.

No. 2347

Draft.

17 April, 1916.

From C. H. Y.

To D. M. N. R. &c.

Sir,

I have the honour to approach Government with reference to the Printing Class at the Government Press, which has now been in existence for some ~~XXXX~~ months. The students are progressing most satisfactorily, and I am afraid that before long they may be tempted by the offer of some small wage to leave the class and become engaged to private firms in Bangalore and elsewhere.

I am anxious that they should not do this before they have ~~XX~~ become qualified by examination and the receipt of a technical certificate, say at the end of two years. I beg, therefore, that a small monthly wage be given them after they have attended the class for six months, with an increment at the end of twelve and eighteen months respectively, subject to their work and conduct being satisfactory.

The file of specimens of work sent herewith will shew that they are doing good work, which in the ordinary way would have been done by piecework men. ~~The labour value of this work amounts to R. , and represents about one month's work.~~ A small wage, therefore, would not be increasing expenses, but would be only paying the students instead of the pieceworkers.

I therefore propose that the pupils be divided into two sections---A and B---according to their abilities, and that their pay be as follows:--

"A" Class		"B" Class	
At the end of six months...	R$.3	At the end of six months...	R$.5
,, ,, ,,	4	,, ,, ,,	6
,, ,, ,,	5	,, ,, ,,	7

The giving of any pay to depend, as already stated, upon their work and conduct being satisfactory.

The average daily attendance is ~~45~~ 46 [illegible]

It would be a great pity if the students were induced, by outside influence, to leave the class under two years' tuition. The object of Government in starting it was to produce qualified men, and then let them go to situations. If they leave us before they are qualified, the purpose of the Government will be nullified. Hence my proposal to do something to induce them to remain for say two years, at the end of which time they should enter for the Madras Technical Examinations. A certificate obtained in this way should assure them a good situation anywhere.

If Government are not prepared to make a separate grant for the proposed payment, then it might be debited to the piecework allotment in the Budget.

I have, &c.,
